

Independent Limited Assurance Report to the Directors of Playtech plc

The Board of Directors of Playtech plc (“Playtech”) engaged us to provide limited assurance on the information described below and set out in Playtech’s Annual Report for the year ended 31 December 2021.

Our conclusion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Selected Information for the year ended 31 December 2021 has not been prepared, in all material respects, in accordance with the Reporting Criteria.

This conclusion is to be read in the context of what we say in the remainder of our report.

Selected Information

The scope of our work was limited to assurance over the information marked with the footnote “6” in the Environmental Metrics section of Playtech’s Annual Report 2021 (the “Selected Information”). The Selected Information is summarised in the table below. Our assurance does not extend to information in respect of earlier periods or to any other information included in the Annual Report 2021.

Selected Information	Reported Performance
Global Scope 1 energy emissions (Tonnes CO ₂ e)	1,171
Global Scope 2 (location-based) emissions (Tonnes CO ₂ e)	6,720
GHG intensity (Tonnes CO ₂ e/employee)	1.14

Professional standards applied and level of assurance

We performed a limited assurance engagement in accordance with International Standard on Assurance Engagements 3000 (Revised) ‘Assurance Engagements other than Audits or Reviews of Historical Financial Information’ and, in respect of the greenhouse gas emissions, in accordance with International Standard on Assurance Engagements 3410 ‘Assurance engagements on greenhouse gas statements’, issued by the International Auditing and Assurance Standards Board. The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Our Independence and quality Control

We complied with the Institute of Chartered Accountants in England and Wales (ICAEW) Code of Ethics, which includes independence and other requirements founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour, that are at least as demanding as the applicable provisions of the IESBA Code of Ethics.

We apply International Standard on Quality Control (UK) 1 and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our work was carried out by an independent team with experience in sustainability reporting and assurance.

Understanding reporting and measurement methodologies

The Selected Information needs to be read and understood together with the Reporting Criteria (Playtech’s Reporting Methodology and Principles Document 2021 available online at <http://www.investors.playtech.com/shareholder-information.aspx>⁽ⁱ⁾) which Playtech is solely responsible for selecting and applying. The absence of a significant body of established practice on which to draw to evaluate and measure non-financial information allows for different, but acceptable, measurement techniques and can affect comparability between entities and over time. The Reporting Criteria used for the reporting of the Selected Information are as at 31 December 2021.

Work done

We are required to plan and perform our work in order to consider the risk of material misstatement of the Selected Information. In doing so, we:

- made enquiries of Playtech’s management, including the Public Affairs and Sustainability function and those with responsibility for responsible business and sustainability management and group responsible business and sustainability reporting;
- evaluated the design of the key structures, systems, processes and controls for managing, recording and reporting the Selected Information. This included analysing performance within four countries, selected on the basis of their inherent risk and materiality to the group, to understand the key processes and controls for reporting site performance data to the group Public Affairs and Sustainability function;
- performed limited substantive testing on a selective basis of the Selected Information at corporate head office and in relation to four countries to check that data had been appropriately measured, recorded, collated and reported; and
- considered the disclosure and presentation of the Selected Information.

Playtech’s responsibilities

The Directors of Playtech are responsible for:

- designing, implementing and maintaining internal controls over information relevant to the preparation of the Selected Information that is free from material misstatement, whether due to fraud or error;
- establishing objective Reporting Criteria for preparing the Selected Information;
- measuring and reporting the Selected Information based on the Reporting Criteria; and
- the content of the Annual Report 2021 and the website at <http://www.investors.playtech.com/shareholder-information.aspx>⁽ⁱ⁾.

Our responsibilities

We are responsible for:

- planning and performing the engagement to obtain limited assurance about whether the Selected Information is free from material misstatement, whether due to fraud or error;
- forming an independent conclusion, based on the procedures we have performed and the evidence we have obtained; and
- reporting our conclusion to the Directors of Playtech.

This report, including our conclusions, has been prepared solely for the Board of Directors of Playtech in accordance with the agreement between us dated 8 October 2021, in order to assist the Directors in reporting Playtech's responsible business and sustainability performance and activities. We permit this report to be disclosed online at <http://www.investors.playtech.com/shareholder-information.aspx>ⁱ in respect of the year ended 31 December 2021, to assist the Directors in responding to their governance responsibilities by obtaining an independent assurance report in connection with the Selected Information. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Board of Directors and Playtech for our work or this report except where terms are expressly agreed between us in writing.
